EXPERIENCE

Product Designer | Meta Reality Labs 2025 - Present

- Redesigned Horizon discovery experiences across **mobile and VR**. Launched publicly at Connect 2025.
- Led Horizon website redesign** for Meta Connect, driving **+54% sessions** and **+57% unique visitors**.
- Built **AI-native prototyping infrastructure** for Metaverse and WhatsApp designers, including **Cursor + Xcode** reusable mobile templates and starter guides for prototyping and shipping code.
- Raised product quality through Kaizen programs, closing 32+ production gaps across VR feed experiences.

Product Designer | Messenger & Instagram 2020 - 2025

Broadcast Channels

- Led end-to-end design** for Messenger Broadcast Channel across **20 key projects**, growing DAU from **286K → 5M** (The Verge) and supporting Oct 2024 GTM.
- Founding designer** for Instagram Broadcast Channel, shaping in-chat experience for a product scaled to **124M DAU / 455M MAU** (TechCrunch, CNBC), **driving cross-org alignment** across Spotlight, Global Directory, and Member Participation Hub.
- Led visual roadmap and interactivity sprints**, generating 50+ concepts that shaped Messenger and Instagram visions.

Messenger Stories

- Led consumption and craft** work, contributing to +0.02% global Facebook + Messenger sessions through 7 shipped projects.
- Designed inbox tray and story access improvements that helped grow Stories consumption to 155M daily consumers, with +34.75% Android story views.
- Led **Stories craft backlog**, pushing micro-animations and expressive motions, translating 29 craft opportunities into shipped improvements and roadmap priorities.

Graduate Research Assistant | Georgia Tech 2018 - 2020

- Designed emerging-technology prototypes across social use of AR glasses, cross-device interaction, and gesture sensing; published HCI research under Prof. Gregory D. Abowd.

EXPERTISE

Design

Interaction systems, product design, motion design, prototyping, AI-native workflows, design systems, product strategy

Prototyping

Origami, Lottie, Cursor + Xcode, Claude Code, Rotato, Unity, Figma, Loom

TALKS & PROJECTS

Meta | 2026

Stargazer: Metaverse Design Starter Guide for Vibe Coding

Just Breathe | 2026

Cross-platform breathing companion (iOS, web, Ray-Ban Display Glass)

UC Berkeley Jacob Institute | 2025

Craft as Play in Spatial Computing

San Francisco Tech Week | 2025

Kaizen XR: Create XR People Trust, Use, and Love

Tencent Blog | 2018

Machine Learning Guide for Designers

EDUCATION

Georgia Institute of Technology

M.S. Human-Computer Interaction

Peking University

B.S. Computer Science
